
The background features a white canvas with several large, colorful circles in teal, lime green, orange, and pink. Some of these circles are solid, while others are dashed outlines. A large, faint dashed circle is centered behind the text. The text is in a bold, teal, sans-serif font.

# **Social Venture Partners Boulder County Technology Survey 2021**

[www.socialventurepartners.org/boulder-county](http://www.socialventurepartners.org/boulder-county)

SVP helps  
strengthen Boulder  
County nonprofits  
while evolving  
individual  
engagement in  
philanthropy.

[www.socialventurepartners.org/boulder-county](http://www.socialventurepartners.org/boulder-county)

A large orange circle is the central focus. Surrounding it are several other circles: a large blue one in the top left, a medium cyan one, a small pink one, a yellow one with a dashed border and a white center in the top right, a medium lime green one in the bottom left, and a small green one with a white center in the bottom left.

# Our Vision & Mission

## Vision

A more vibrant and thriving  
Boulder County community for  
*all*.

## Mission

To harness the collective power  
of nonprofits and philanthropic  
changemakers to accelerate  
community impact.

# Nonprofit Programs

**Catapult**

**Resource  
Teams**

**Invested  
Leaders**

[www.socialventurepartners.org/boulder-county](http://www.socialventurepartners.org/boulder-county)

# Who is the Tech Resource Team and Do they Do?

SVP's Technology Resource Team provides technology assessment and roadmap planning services to ensure that your organization has the right technology tools to meet your programmatic and operational goals.

[www.socialventurepartners.org/boulder-county](http://www.socialventurepartners.org/boulder-county)

# About the Technology Survey

The SVP Tech Resource team developed this survey to identify themes and needs in technology use by Boulder County nonprofit organizations so that we can provide connection and services based on findings.

# Tech Survey Responses

**33 responses** from **27 organizations**

## Responses by Organization Size/Budget

■ Less than \$500K ■ \$500K - \$1 million ■ \$1 million - \$2 million ■ Over \$2 million

## Responses by Staff Size

A decorative graphic consisting of various colored circles (blue, green, yellow, orange, pink) and dashed lines arranged in a circular pattern around the central text.

# 93%

of responding organizations  
currently use a CRM  
(Constituent Relationship  
Management tool)

[www.socialventurepartners.org/boulder-county](http://www.socialventurepartners.org/boulder-county)

\*Some organizations listed several tools/systems used

\*Others - only one response for each of the following - CampMinder, Bloomerang, Boulder County Connect, eTapestry, DonorView, Exceed Beyond, Giftworks, MyHeadStart, Kindful, ServTracker, Digital Galaxy, PatronManager

## How long have you used this CRM?

■ Less than 1 year ■ 1-3 years ■ 3-5 years ■ 5+ years

## Key Insight:

Non-profits choose software  
on the basis of **functionality and price**

### Priorities when choosing a CRM database

... and **not for training and staff support**

## How Did We Get Here?

(Why did you choose this software)

---

“I didn't. I inherited it.” (Neon)

“We've had it from before I started.” (GiftWorks)

“Our national organization chose it and allows us to use it for free.” (Salesforce)

“Best for the price, required by funders.” (DonorPerfect)

“Easy to customize, affordable, could be expanded to volunteers and clients.” (Neon)

“It was a fundraising software that fit into our budget and "integrated" with VolunteerHub ([though] less than we expected it to).” (eTapestry)

“Lots of research, we felt this served all our needs for registration, summer camp, donor management, events, volunteer registration, surveys and mass emails.” (DonorView)

“After the administrative team researched a few CRM options, Salesforce/PatronManager was a huge financial and educational investment and would be a useful tool that would carry us for the lifetime of the nonprofit. Automations for contacting/communicating with vendors, donors, and patrons were desired. This is a powerful ticket sales product.” (Salesforce)

A decorative graphic consisting of various colored circles (blue, green, yellow, orange, pink) and dashed lines arranged in a circular pattern around the central text.

# 3.8

## Average satisfaction with current CRM solution(s)

Six organizations responded 5 (most satisfied), while only one organization responded 1 (not satisfied at all).

Of those that responded with the highest satisfaction rate (4 or 5):

- ★ 53% use Salesforce
- ★ 18% use a Blackbaud product
- ★ 24% use a different product

[www.socialventurepartners.org/boulder-county](http://www.socialventurepartners.org/boulder-county)

## Top Reasons for Dissatisfaction with the CRM

<b>Complexity</b>	<b>32%</b>
<b>Lack of Functionality/Need for Add-Ons</b>	<b>28%</b>
<b>Reporting Complexity</b>	<b>8%</b>
<b>Not Tailored To Our Industry</b>	<b>8%</b>
<b>Not Internet Based</b>	<b>4%</b>
<b>Initial Setup</b>	<b>4%</b>
<b>Ease of Communicating with Volunteers</b>	<b>4%</b>
<b>Donation Pages Not Flexible</b>	<b>4%</b>
<b>Difficult Deliniating Roles</b>	<b>4%</b>
<b>Cost</b>	<b>4%</b>

“It's complicated to use, and requires a full time staff (me) just to manage it.”

“It lacks tools for online giving, email analytics, peer-to-peer fundraising, and online auctions.”

“There are occasionally more complex reports that it isn't able to do for us.”

## How do you get Support?

## CRM and Staff Resources

- In nearly half (48%) of the organizations, **5 or fewer** staff members use the CRM.
- In 81% of the organizations, **5 or fewer** staff members are strong or knowledgeable users of the CRM.
- Yet 63% of organizations say their CRM is **critical to their fundraising**.

[www.socialventurepartners.org/boulder-county](http://www.socialventurepartners.org/boulder-county)

## WHAT CRM FEATURES DO YOU USE?

## What Features Do You Wish Your CRM Had?

## Other Wish List Responses

- Better data extraction
- Wills, bequests, stock donations
- Child care licensing information
- Thank you gift inventory
- A robust user community
- “We wish the features that it does have were better.”

## Other Findings

- More than 50% of organizations do not have a platform for volunteer management or grant management, or they report using spreadsheets.
- No one platform for events/auction management is most popular.
- More than 80% report using online giving tools, but no one platform stands out.
- Most organizations use Google Forms or Survey Monkey for online surveys and forms.
- Most organizations use either MailChimp or Constant Contact for sending mass emails.
- Only 22% report using a texting platform.

## Lessons Learned - Selected Comments

“We typically use mainstream products that have a free or very low-cost version. Some products are offered at a significant discount to nonprofits through TechSoup, so I recommend checking there before making a decision. Sometimes cheap/off-brand tools are not worth the trouble.”

---

“I know Salesforce is extremely functional, but the learning curve is very steep. Unless a nonprofit has at least 10,000 contacts, I would not recommend Salesforce. [But] if an organization anticipates significant growth, I would highly recommend Salesforce since it can grow, adapt and change, also.”

---

“We learned that we should have looped more of the team into the decision get the CRM. This would have made the integrations happen more seamlessly and provided everyone with the correct training needed for their work.”

## Lessons Learned - Selected Comments

“A good lesson learned is not to integrate too many platforms at once. Over the past 2 years, we've slowly integrated with other tools and each one takes more time than expected to integrate and learn how to use the tool. Another lesson learned is to emphasize user adoption and keep on people through trainings and tools to ensure they're using the tool correctly.”

---

“Getting things set up properly from the start is essential! I inherited databases that weren't setup properly and it was MUCH harder to fix the issues when the database was already in use.”

---

“No CRM can do everything well. I think organizations are best served by choosing a CRM that solidly covers the basics, fully integrates one or two key additional functions (online giving would be my top priority), and has a straightforward import/export process for data from other platforms.”

## Key Take-Aways

Investing in your technology will help your organization better achieve your goals and mission.

A starting point is a technology audit. The results of a tech audit can provide input to Strategic Planning and help you prioritize next steps. The SVP Tech Resource team can assist with a tech audit.

## Resources

Building connections - The SVP Tech Team can connect you with other orgs using same tool(s) for support

Consultants in Tech - A national group of consultants focused on supporting nonprofit organizations.
