CEO's Statement

Joshua Silberstein Chief Executive Officer

This last fiscal year was surprisingly strong, especially since - as an organization or as a sector - we don't think we have seen the full effect of Covid and inflation. Between the amazing amount of volunteer hours on 67 projects and the generous amount of giving Partners did individually to nonprofits over and above your commitment to SVP, it is stunning. Your collective impact was 11x the impact of SVP's cash grants. This during a year where we were able to increase our grant offerings to the most it's been in several years. We see our network growing and getting stronger and from where I sit, I am seeing how we are in a great position to activate our networks to grow our Partnership and create meaningful impact in this community we love and hold dear. Thank you for your insight, curiosity, diligence, and support. SVP is an example of how we can come together and create strength for our community.

Partner Engagement

In service of stronger nonprofits, SVP Partner Members roll up their sleeves to impart their experience, time and know-how with our nonprofit participants while also learning together.

Our Partners are skilled volunteers who bring professional experience from a wide array of backgrounds. They are leaders from the business community, experienced nonprofit leaders, young professionals gaining leadership and other professional skills; and community members who seek indepth volunteer opportunities.

Last year, our Partner Members gave over 1,760 hours of volunteer time. They worked alongside more than 45 nonprofit participants through 67 Resource Team projects. They also moderated Invested Leaders, nonprofit peer to peer cohorts. In 2022, our Partners worked alongside, supported, and networked with 68 Boulder County nonprofits in total through our Catapult, Resource Teams, Invested Leaders, and networking events.

We thank all of our Partners for their engagement with SVP, 94% of whom donated their time on teams, committees, and attended SVP events.

Board Chair's Statement

Rising to The Challenge

Claire Clurman Board Chair

In the past year, we've witnessed fear, resilience, hope, hard truths, and new ways of working both individually and as a team. For SVP Boulder County, the resilience of our Partnership and Staff to pivot programming and step into a multitude of capacity-building projects has been impressive, sustainable, and a huge source of hope and support for our local nonprofits who continue to stand strong on the frontlines of serving our community. As grant-makers, we've acknowledged the responsibility we have as an organization to confront the ways our sector has contributed to systemic inequities and the power imbalances that need to shift between funders and nonprofits. And finally, as leaders, collaborators, and partners, we've made a commitment to broadening and diversifying our perspectives, lived experiences, and the exploration of participating in cross-sector solutions to complex social issues. To do all of this requires relationships that are built on mutual trust, mutual learning, a sense of curiosity, and transparency. On behalf of the Board of Directors, we are deeply grateful for your dedication to SVP as engaged changemakers. May we continue to rise to the challenge with strength, humility, and passion for a more equitable world.

Programs

Strong nonprofits make a strong community. For over two decades, SVP has worked side-by-side with Boulder County nonprofits to support a community where everyone can thrive. By leveraging the experience of our skilled volunteers, SVP provides the resources and guidance to help nonprofits make change, move forward, and envision their future. We support our volunteers by helping them learn, connect, and contribute their skills and experiences successfully.

Catapult is our longest running program. The program was re-imagined this year to better meet the needs of the Nonprofit Participants, or "Investees." Catapult offers selected organizations the opportunity for skilled volunteers to guide the organization as well as unrestricted cash grants to help with the cost of making changes and to support the financial wellbeing of the organization.

The SVP Partnership chose to narrow the focus of Catapult beginning this year. Instead of the program being an open application to any nonprofit in Boulder County, the selection is now based on relationships built with organizations in specific focus areas. Instead of multi-year projects, identified by SVP's organizational assessment, the Investee guides SVP as to what combination of grants and projects are useful and implementable.

In Fiscal Year 2021, four organizations engaged in Catapult projects and received a combined \$51,000 in unrestricted cash grants. Those Investees were Longmont Community Justice Partnership (LCJP), Impact on Education, Wild Bear Nature Center, and our newest participant, El Comité de Longmont.

Our Resource Teams are groups of skilled Partner volunteers who work with nonprofit participants on short-term, single-issue area projects. Our Resource teams worked on issue areas including Leadership Advising, Board Development, Technology, Fundraising Strategies, and Strategic Planning.

Invested Leaders are SVP Partner moderated peer to peer discussion groups for nonprofit leaders. Last year our groups brought together 17 organizations in three cohorts for Development Directors, and Executive Directors of mid-sized and large organizations.

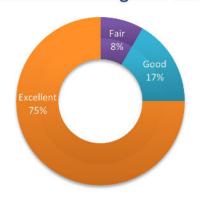

Programs Impact Report

Tracking Nonprofit Participant perceptions of SVP is important because of the relationship-intensive nature of our collaboration. SVP's high level of engagement requires a strong foundation of trust. A high degree of satisfaction with SVP relationship is a prerequisite for any meaningful capacity building work.

Beginning in March 2023, SVP administered tools to gather data on Catapult and Resource Team project outcomes and received responses from 12 of 19 or 63% of the nonprofit organizations who had completed projects with SVP during the last year.

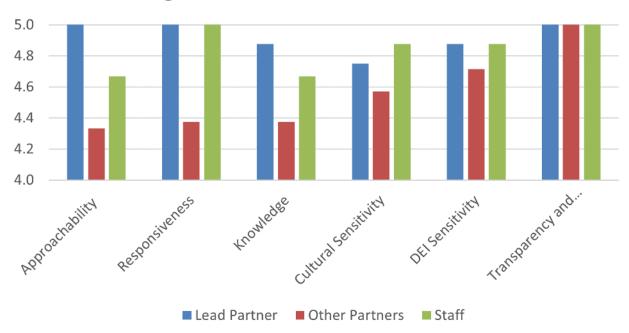

Overall, 91% of respondents characterized their experience of working with SVP as good or excellent.

Overall Working with SVP

Additionally, 100% of nonprofit participants characterized their relationship with their Lead Partner(s), and 90% characterized their interactions with other Partners and staff as good to excellent (3, 4, or 5 on a range of 1-5).

Average Satisfaction with SVP Interactions

Program Impact

SVP works with Catapult Investees to identify the areas of capacity and capability it needs to develop, and then provides consulting to strengthen those areas; SVP matches nonprofit participants with Resource Teams based on what the nonprofit requests. SVP matched approximately 50 Partners to projects in 2022.

SVP asked Nonprofit Participants for their perceptions of value of Partner support received from the following areas of assistance: Strategic Planning, Technology, Board Development, Leadership Advising, Development and Fundraising, Invested Leaders, and Other. The value is defined as Not Valuable at all (1) to Extremely Valuable (5). 90% found the areas supported to be Valuable to Extremely Valuable.

Value of Support Areas

SVP's consultation to my org on board development was incredibly helpful and it launched us to the next phase of organizational growth and maturity.

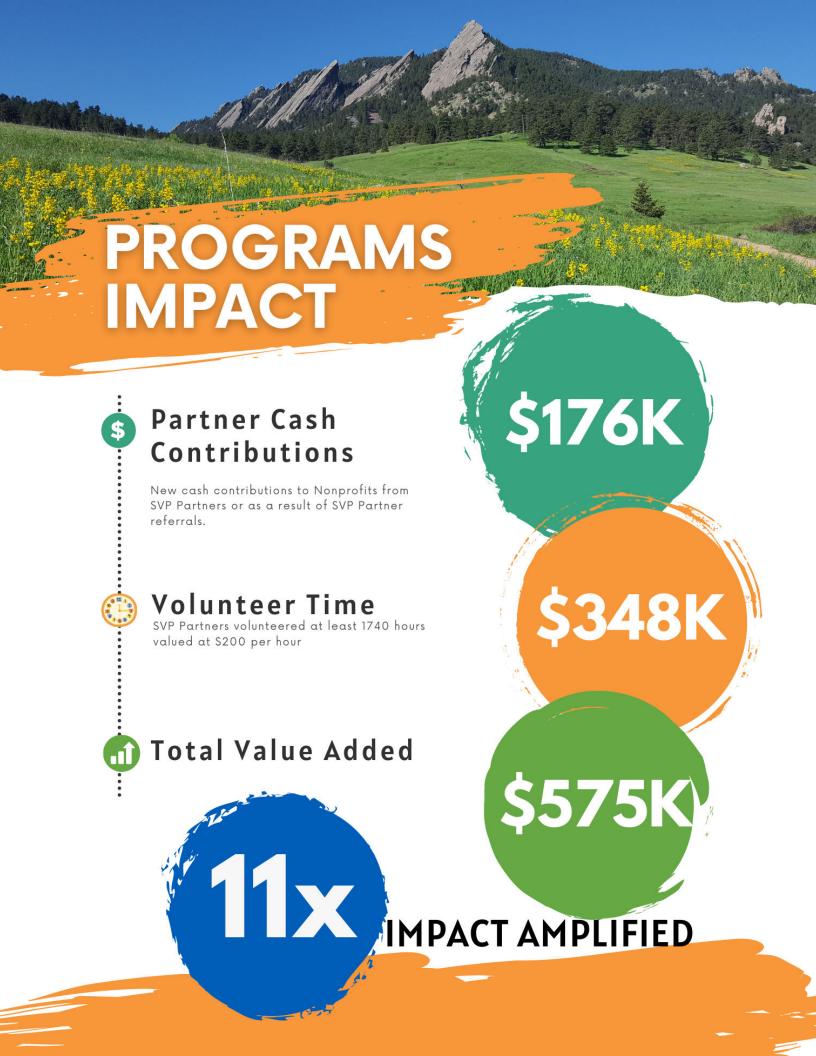

1:1 leadership coaching has been extremely helpful and I wish I had started it many years ago.

SVP has been incredibly engaged, thoughtful, and effective, and has furthered our organization's development significantly.

SVP's strategy for building capacity is to provide a complete package of professional-level volunteers (Partners), mentoring, coaching, education, facilitated peer learning, money, and networking opportunities to its Nonprofit Participants.

In fact, the cash grants are only a small portion of the value that Participants gain by being part of SVP. Through the survey, we attempt to quantify the value added by SVP Partners by asking for information about new cash contributions from Partners.

Partners donated more than \$50,000 directly to our Nonprofit Participants and more than \$175,000 as a result of their donation referrals to our Boulder County nonprofit community. This is in addition volunteer time and the cash grants distributed by SVP.

Treasurer's Statement

Peter DiBari Board Treasurer

SVP Boulder County finished our fiscal year having continued the trend of an increased Cash On Hand position Year-over-Year. While we ended the year with a deficit of approximately \$18,600, our outstanding expected Individual Donation was \$23,500, which gave us a net profit of \$4,900.

As with our previous year, our goal remains to further develop our revenue sources in order to diversify our revenue streams to lower our risk profile. We are continuing this challenge on strong financial footing heading into the year ahead.

TOTAL REVENUE \$324,350 TOTAL EXPENSES \$342,985

GRANTS PAID TO NONPROFITS \$51,000

NET ASSETS \$240,224

These figures are taken from the form 990 filed for fiscal year ending September 30, 2022. To view the form click HERE.
